REPORT

BY E. B. ANDREWS.

SENECA TOWNSHIP This is the northwestern township in the county. It is intersected by several branches of Wills Creek, which have, during the ages, made for themselves that openings have been made in some ot the seams. The two lower seams are pretty low in the hills, while the others Office and residence in Bank Building-jy6,751

are quite high. The geological section from Calais to Miltonsburg is as follows:

1-Blossom of coal, 2--Not seen, 3-Limestone (not measured,) 4-Not seen, 5-Blossom of coal, 6-Interval not seen, 7-Blossom of coal, 8-Underclay, 9-Buff limestone, 10-Shale, 11-Sandstone. with some shale, 12-Blossom of coal,

13-Shale,

14-Buff limestone,

15-Shale, 16-Buff limestone. (Map XIII, No. 1) Having located at the above place, offers his Professional services, where he hopes by close attention to business to merit public between Nos. 5 and 7 in the section, in the usual form of dividends prior to the eager in the usual form of dividends prior to control to the usual form of dividends prior to control to the eager in the usual form of dividends prior to control to the eager in the usual form of dividends prior to control to the eager in the usual form of dividends prior to control to the eager in the usual form of dividends prior to control to the eager in the usual form of dividends prior to control to the eager in the usual form of dividends prior to control to the eager in the usual form of dividends prior to control to the eager in the usual form of dividends prior to control to the eager in the usual form of dividends prior to control to the eager in the usual form of dividends prior to control to the eager in the usual form of dividends prior to control to the eager in the usual form of dividends prior to control to the eager in the usual form of dividends prior to control to the eager in the usual form of dividends prior to control to the eager in the usual form of dividends prior to control to the eager in the usual form of dividends prior to control to the eager in the usual form of dividends prior to control the eager in the usual form of dividends prior to control to the eager in the usual form of dividends prior to control to the eager in the usual form of dividends prior to control the eager in the usual form of dividends prior to control the eager in the usual form of dividends prior to control the eager in the usual form of dividends prior to control the eager in the

SUMMIT TOWNSHIP.

7-Shale, 8-Limestone, 9-Shale, 11-Shale, and not seen,

15-Not seen, 16-Dark clay shale, 17-Coal (Cumberland seam,) (Map XIII. No. 2.) On the land of Wm. Smith, section

18, the following section was taken: 2-Not exposed, 3-Clay shale, -Black slate, with coal plants,

5-Coal (Cumberland seam,) (Map XIII, No. 3.) Smith to a small extent, and some been taken to Woodsfield

The coal has been mined by Mr. On the land of J R. Fisher, on Sun fish Creek, north of Wm. Smith's, a stratum of iron ore, 9 inches thick is report-Passengers, Baggage, Packages ed by Hon. J. O Amos. It is thought

Smite, s, as tracted by Hon. J. O Amos. It is thought to be about 50 feet above the Woods field (Evans) seam of coal.

The man was sousing the garment up and down and around, and as the "soused" he whistled a merry tune. This township is situated on the morthern border of the county. It lies upon the high ridge dividing the waters of Captina Creek, in Belmont County, on the north, and those of Sunfish Creek on the north and those of Sunfish Creek on the north, and those of Sunfish Creek on the north and those of Sunfish Creek on the north of the south. The principal drainage, how ever, is toward the latter stream. While there is much smooth and comparative is much as a sunfit the sudden brightening of the landlord's eyes as I state that the mote meant to note of the sunder which is the time did this, but it was so brief that it made the water of them, whose voice I instantly recogaiz them, whose voice I instantly recogaiz them the more meant to now. "Hist: here is his horse, said the offers, is as the offers, is at the offers, as an impatient movement of the sunder way and secreted her nutil the sack was over. As for the governor, and would have dead them, whose voice I instantly recogaiz them, willied has the offers, said the offers, is them, will as the free of

There was not much feeling at the face. In Wayne township, Belmont county, which lies directly north of Sunsbury, the upper Barnesville, or Cumberland, seam is near the bed of Captina Creek. If the Evans coal, on Sunfish, north of Woodsfield, is the Sunfish, north of Woodsfield, is the seamed that this was merety a first against Louis XVI., for he was a feller who who had gone other was vacant, and entering it I took feint, for no sooner did he see that I was far better king than those who had gone feint, for no sooner did he see that I was far better king than those who had gone before him He was kindly at heart, and what we might call nowadays a genter open door, fixing her large, earnest eyes open door, fixing her large, ea
